EXPERIENCE

October 2022 – December 2022

Hotels.ng, Remote – Frontend Engineering Intern

- Converted Figma designs to UI components using React.js and SCSS.
- Closely worked with Backend Engineers and Product Designers to create problem-solving products with the best possible user experience, maximum speed and scalability.
- Prioritized and managed multiple tasks across multiple projects, under tight deadlines.

EDUCATION

November 2021 – July 2024

Model Secondary School, Abuja, Nigeria – Senior School Certificate

- Took lessons on Algorithms, Numerical methods, Programming Languages, System Development and more.
- President of The **Junior Engineers, Technicians and Scientists(JETS)** Club.

PERSONAL PROJECTS

Certgo: Certgo is a certificate maker built with React.js, Node.js and MongoDB that helps individuals and organizations to create, share and download either single or bulk custom certificates. **My team and I were able to deliver the MVP from scratch in under 6 weeks**, and it has gone on to greater heights ever since. The app is hosted at <https://certgo.app> and is currently seeking investors.

Ehiz: This is my portfolio which I built with React.js, Node.js and React-Bootstrap. In building it, I applied the knowledge and experience gained from online courses and the above-mentioned HNG Internship. It's hosted at <https://ehiz.netlify.app/>.

SKILLS

Languages: HTML, CSS, JavaScript, Python

Frameworks/Libraries:

React.js, SCSS, Bootstrap/TailwindCSS

Others: E2E Testing, PWAs, Googling, Responsive Web Design
